Professional Summary

Software Developer with hands-on experience in frontend and backend web application development. Skilled in Python, JavaScript, React, Next.js, Django, FastAPI, REST APIs, CRUD operations, and relational databases. Experienced in developing responsive web applications, integrating APIs, implementing backend functionality, debugging, and improving application performance and usability.

Technical Skills

Languages:	Python | JavaScript | SQL
Frameworks:	React.js | Next.js | Django | FastAPI | REST APIs | Bootstrap | Tailwind CSS
Databases:	MySQL | PostgreSQL | SQLAlchemy (ORM)
Concepts:	OOPS | DSA | CRUD Operations | Postman | Problem Solving
Tools:	Git | GitHub | VS Code | Jupyter Notebook

Work Experience

Software Development *June 2025 – Present*

NICS Technology Noida, Uttar Pradesh

- Developed and maintained web applications, implementing new features and improving application functionality, performance, and usability.
- Integrated REST APIs and backend services with frontend interfaces to enable seamless data communication and application workflows.
- Deployed and maintained web applications on cloud platforms, supporting application availability, reliability, and scalability.
- Integrated third-party APIs and external services to extend application capabilities and improve overall user experience.

Project

Hospital Management System | *React.js, FastAPI, PostgreSQL, SQLAlchemy*

- Developed a hospital management application to streamline patient registration, doctor management, and appointment scheduling.
- Integrated backend services to manage patient records, doctor availability, appointments, and hospital operations.
- Created a responsive dashboard to monitor patient information, manage appointments, and track booking statuses.

GitHub Profile README Generator | *HTML, CSS, JavaScript, React.js*

- Developed a web application concept for creating personalized GitHub profile README content from user-provided details.
- Designed profile customization inputs and a Markdown preview workflow before users copy the content to GitHub.
- Focused on responsive UI and simplifying GitHub profile customization.

Hotel Management System | *React.js, FastAPI, PostgreSQL, SQLAlchemy*

- Developed a full-stack Hotel Management System to manage hotel rooms, guest information, and reservations.
- Built REST APIs using FastAPI to handle room management, guest registration, bookings, and cancellations.
- Integrated PostgreSQL to store and manage room, customer, and reservation records.
- Created a responsive React.js dashboard with room availability, booking status, and search functionality.

Education

B.Tech, Electronics & Communications Engineering

Saharsa College of Engineering, Bihar CGPA: 7.69/10

Intermediate (Class XII), BSEB Board

Hadi Hashmi Plus Two School, Gaya First Division

CERTIFICATIONS & ACHIEVEMENTS

- Python Certification – Spoken Tutorial, IIT Bombay · Score: 85% · Credits: 4
- HackerRank – 3-Star Badge in SQL and Python
- Crowdsource by Google – Google Crowdsource Learning Community Program
